The purpose of this position is to serve as a veterinary medical officer providing technical expertise related to the administration of regulations governing the movement of animals, animal products, and other items of public health importance into the United States and among the States and U.S. possessions.

Responsibilities
  o Perform technical veterinary medical officer duties.
  o Review and approve applications from commercial and nonprofit entities for permission to import nonhuman primates into the United States.
  o Review standard operating procedures and other documentation from new and re-registering importers.
  o Travel to quarantine facilities operated by registered nonhuman primate importers and other locations as necessary.
  o Prepare analyses and reports of nonhuman primate importation data for internal and external use, including presentation at scientific meetings and publication in peer-reviewed scientific journals.
  o Assist with preparing new and revised regulations, policy documents, and standard operating procedures.

There is an error in the posting – the position is located only in Atlanta, GA.
