The Washington National Primate Research Center: Animal Resources Division has an outstanding opportunity for a Veterinarian (Part time-Relief) to join their team in Arizona (Mesa).

The primary purpose of this position is to fulfill the mission of WaNPRC which is to empower the delivery of leading-edge scientific discoveries and promoting the highest standards of care, health, well-being and conservation for primates around the world. In conjunction with our Mission Statement, these values link this position to our purpose as a Center:

- Commitment to Foundational Research
- Teamwork
- Accountability
- Productivity
- Clear and Respectful Communication

The time commitment for this position is negotiable, and can be varied over time. This position will work with the existing full-time veterinarians to develop a schedule that will provide optimal veterinary coverage.

Position Complexities:
Under the general direction of the Associate Director, the Veterinarian - Temporary (on-call) provides critical veterinary support and care of nonhuman primates (NHPs) used for research at the Washington National Primate Research Center (WaNPRC). This position will have the primary duties to include but not limited to performance of clinical care of nonhuman primates at the WaNPRC Arizona Breeding Colony. This position requires strong veterinary skills, strong organizational skills, direct interaction with diverse groups within the WaNPRC, and the ability to work with minimal supervision.

MINIMUM REQUIREMENTS
• Doctorate in Veterinary Medicine and 2-3yrs of applicable work experience.

Equivalent education/experience will substitute for all minimum qualifications except when there are legal requirements, such as a license/certification/registration.

ADDITIONAL REQUIREMENTS
• Doctorate in Veterinary Medicine from a College of Veterinary Medicine that is accredited by the American Veterinary Association or has a certificate issued by the American Veterinary Association’s Education Commission for Foreign Veterinary Graduates (ECFVG in progress will be considered), and a license to practice veterinary medicine in at least one state;
• The ability to obtain a license to practice in the state of Arizona.
• Completion of a laboratory animal residency, or a minimum of 2 years of experience with research animals.
• Excellent written and oral communication skills.
• Proficiency in use of computers including use of word processing, spreadsheets, database
software, and internet usage.
  • Demonstrated capacity to work well independently and in collaboration with a diverse staff.
